as we live through the throes of an energy crisis this timely book sets out how electricity can finally get the world off fossil fuels and accelerate moves to a zero carbon world the essential element in this transformation is setting up a supergrid to transmit vast amounts of power quickly to where it's most needed supergrid super solution sets out how this can be done in the european context with ireland playing a lead role through deployment of its vast offshore wind resources this is in a new energy supply system delivering consistently cheaper power all made possible by using superconductor technology supergrid super solution outlines the masterplan by a global leader in developing renewable energy with input from leading energy experts the solution that tears up energy history by revealing how renewable energy and a radically changed electricity grid are key to securing europe's energy future the creation of an energy revolution

using superconductor cables to deliver electricity from offshore wind and solar to areas of peak demand at the heart of europe through rollout of the supergrid by deploying already proven technology ireland s opportunity to become a renewables exporter of green power to mainland europe the special advantage for counties along the western seaboard which is set to witness unprecedented economic opportunity because of record wind speeds in the nearby atlantic that will be harnessed by floating turbines the need for courage and collective action by states and the private sector to work together in the best interests of humanity and planet earth supergrid super solution is essential reading for anyone interested in practical solutions to achieving net zero

the recent financial crisis has demonstrated the dangers of ignoring the factors that led to previous crises and the effectiveness of the policies designed to deal with them over time these macroeconomic policies have evolved oscillating between state intervention and a free market approach following a story that runs from the pre great depression era up until the financial crisis of 2007 11 this book reveals an intimate connection between new macroeconomic ideas and policies and the events in the real economy that inspired them it does this in an accessible easy to follow style first by focusing on the developments of economic theories and policies and then by concentrating on the design of domestic and international institutions and economic governance written by three leading experts on the history of economic policy the book is ideal for graduates and undergraduates studying macroeconomics monetary policy and the history of economic thought

helmut wagner university of hagen feithstr 140 d 58084 hagen in the last few years decisive methodological and thematic focal points which are important for practical economic policy have been developed in the theory of monetary and exchange rate policy this book is concerned with these developments their assessment and the open questions which have still not been solved it is divided into four parts the first part deals with central bank design the second with strategies of monetary policies and their implementation part iii is concerned with theoretical aspects of exchange rate policy and monetary union and part iv with selected issues of monetary and exchange rate policy in developing and transition countries in the following pages i will provide an 1 overview of the individual articles with the exception of the article by nobel laureate james tobin the contributions contained in this book were all introduced and discussed at an academic symposium i organized in castrop rauxel on 8 and 9 september 1997 james tobin agreed spontaneously to my suggestion that he should write a comprehensive article especially for this publication a short summary of the comments or supplementary papers and of the general discussions will be given in the last section of this book titled conclusion and supplements there i will also provide some supplements respecting the issues which were the subject of the greatest amount of debate at the symposium
